

Equipment Rental

Manage your End-to-End Rental Process

Get ready to simplify and automate your equipment rental process while improving customer satisfaction. Resolv Equipment Rental is a single, integrated application, that helps organizations track and manage their rental process. The Resolv Equipment Rental module allows you to combine Equipment Rental tracking with SAP Business One Inventory Management, Sales, Purchasing and Accounting activities to deliver an enterprise-level Rental Solution.

Resolv Mobile Equipment Rental is an extension to our desktop application and provides organizations the flexibility to book and process rental transactions on their tablet or smartphone. Transaction processing time is reduced with a real-time integration with SAP Business One, increasing efficiency and customer service levels.

Core Features and Functionality

The Resolv Equipment Rental module has the specific features and functionality that enable your business to manage your rental processes more efficiently – saving your business valuable time and money.

Real Time Rental Processing includes:
