OUR MISSION

**TO PROVIDE INNOVATIVE
BUSINESS MANAGEMENT
SOLUTIONS THAT HELP OUR
CUSTOMERS RUN GREAT.**

ABOUT US

We provide innovative business management software solutions to midmarket enterprises across North America. We leverage the experience of our people, and our successfully proven processes to bring solutions to our clients. We deliver high quality customer experience and we measure our success through our clients' satisfaction, and our ability to help them run great.

OUR STORY

VistaVu is an employee-owned company founded by Jory Lamb, an EY recognized Entrepreneur of The Year award winner. We have a growing team of 114 staff with operations in numerous locations across North America.

We believe that it is critical to take the time to regularly engage with our customers so that we understand where they are in their business, and how we can help them continue to scale and grow. Their feedback helps to drive our program initiatives and our process improvements to focus on what they need. As a result, we have been recognized for our high customer retention within our partner ecosystem.

Our team has experience from industry companies in Aerospace and Defense, Field Services, Life Sciences and Manufacturing as well as consulting organizations like PWC and Deloitte. We have a proven track record of success, and customer experience is at the core of everything we do.

INTEGRATIONS

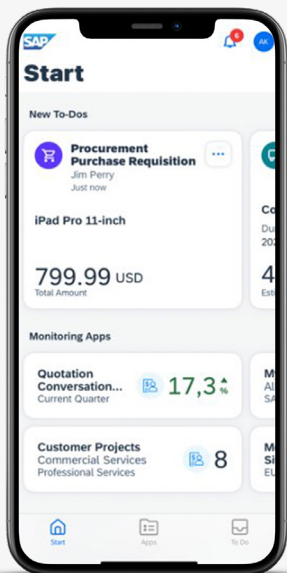

- ▶ SAP BUSINESS TECHNOLOGY PLATFORM

An all-in-one solution featuring comprehensive tools for custom application development, secure data management, advanced analytics, and seamless process integration.

- ▶ BOOMI

A global leading platform that provides endless opportunities for digital transformation from integrations, streamline process applications, master data management and EDI.

As a Managed Services partner we bear the burden of certifications, monitoring and support for our customers.

RESOLV

Optimize your supply chain from end-to-end. Streamline distribution, logistics, and warehouse management within a scalable & integrated solution.

► WAREHOUSE MANAGEMENT

Core WMS and advanced features work together to increase the accuracy & speed of your warehouse processes.

► RENTALS

A single, integrated application that helps organizations track and manage their rental processes and transactions.

FIELDVU

Modernize processes from field ticket to invoice in a single system integrated with ERP. Gain a competitive edge with industry innovations such as AI & IoT.

Mobile-enabled software and asset management systems can be added based on your unique requirements.

“ The team's dedication to fulfill their clients' expectations surpasses the competition.

Gary Yantsos, Topcon

“ I just kept waiting for the next shoe to drop, but really, our team at VistaVu had everything under control

Sam Sauer, IBP
